

NHS Community Pharmacy Contraceptive Service

You don't always need a GP appointment for the contraceptive pill. Many local pharmacies in the Aylesbury area now offer this NHS service.

What the pharmacy can do

- Start you on the pill if you haven't used it before
- Provide repeat supplies if you're already taking it
- Offer confidential advice and checks (e.g. blood pressure, weight)

Why use a pharmacy?

- No GP appointment needed
- Free, confidential and convenient
- Local with flexible opening hours
- Receive your supply straight away

Find a participating pharmacy near you using the NHS Service Finder:

[Find a pharmacy that offers the contraceptive pill without a prescription - NHS](#)

Please contact or visit the pharmacy directly to arrange your consultation. The pharmacist will discuss your options and, if suitable, provide your contraception. Please note: if you have any health concerns or the pharmacist advises you to, you may still be referred to your GP or specialist service.
